Summary

This report details the results of the 2024 Graduate Survey. This survey is administered at the end of each academic year to all students graduating in that year and serves as an important measure of student satisfaction. The survey includes a number of the College's Key Performance Indicators (KPIs) and is evaluated as part of the College's strategic planning process.

Methodology

This year, the College used a revised version of the Graduate Survey with 25 questions. However, more detailed questions regarding the graduate's planned college major and profession were included. It asks graduates about their experiences at the College, but also references their backgrounds, and future plans. Revisions were made jointly by the Chief Student Affairs Officer and Director of Institutional Effectiveness with feedback from other staff members as well as a number of students.

The 2024 Graduate Survey was administered via Survey Monkey to all 436 dual enrollment graduates of the Class of 2024, with a 99% response rate.

Analysis

Survey results were, on the whole, very positive and provided insight into the student population. Students indicated a high level of support and awareness regarding most aspects of the College. The following is a question-by-question analysis of the results followed by graphical representation of the data and individual responses to the open ended questions:

- Q1: 91% of graduates indicated they will be attending a four-year college or university and 5.53% plan on attending a two-year college immediately following their graduation from Doral College. While 2.76% of graduates plan to attend an academic institution in the future but not immediately. This is consistent with the results of the last five years, further supporting the understanding that the College's student population is more concerned with pursuing continued postsecondary study than employment opportunities.
- Q2: 51.15% of graduates indicated they had applied to more than four colleges, universities, or technical schools to continue their academic careers compared with 21.66% applying to 3-4 schools, and 325.12% applying to 1-2 schools.
- Q3: 34.33% of graduates indicated they had been accepted to more than four colleges, universities, or technical schools in order to continue their academic careers compared with 28.57% accepted to 3-4 schools, and 32.95% accepted to 1-2 schools.
- Q4: Regarding how many scholarship dollars they had been offered, 16.36% of graduates indicated they had been offered \$75,000 or more, 5.53% had been offered between \$74,999-\$50,000, 13.59% had been offered between \$49,000-\$25,000, 33.81% had been offered less than \$24,999, and 31.34% indicated they had been offered no scholarship dollars.
- Q5: Concerning employment regardless of continued education, the majority of graduates (53%), indicated they intend to look for part-time employment, while 24.42% intend to look for full-time employment. 27.65 % of graduates intend to continue employment currently held, whether part-time or full-time, and 16.13 % have no plans for employment. Similar to last year, the majority of students have plans to work part time, and the overall majority indicate plans to work in some capacity.
- Q6: This question was revised for the 2024 survey to reflect open ended responses to a survey administered to this population at the beginning of the Fall 2023 semester. The categories were narrowed down to 109 specific careers and career fields. While this is tedious, it helps give Doral College insight into the academic needs of current and future students. The responses can also assist in planning for new program offerings. Regarding future careers, graduates indicated interest in a wide variety of fields. The most popular responses include medicine and health related professions (8.78%), nursing (8.22%), biology (7.08%), and Psychology

(5.95%). It is worth noting that there were quite a few specific choices related to these selections. Some students (2.83%) did respond that they were undecided. Results also indicate the majority of graduates have very specific plans for their future professional life.

- Q7: This question asked graduates to indicate the highest degree they intend to earn. An impressive 34.33% indicated plans to earn a doctorate or medical doctorate degree. The majority of graduates (35.94%) plan on earning a master's degree. A bachelor's degree is a less popular option at 17.05%.. A law degree (7.60%) was also popular. These results reflect the quality of the graduating class and the extent of their academic plans.
- Q8: Regarding the quality of instruction, 75.58% of students indicated their instructors taught either extremely or very well. Please note 22.81% responded somewhat well. These results indicate the College is maintaining a quality faculty.
- Q9: This multi-part question asked students to indicated how well the College prepared them for attaining each of the Associate in Arts degree's program outcomes. Results, which reflect an increase in a positive response for each outcome, strongly indicate the program is succeeding in preparing graduates to excel in each of the program outcomes, as follows:
 - Reading effectively (79.5% said "very well" or "well")
 - Writing (83.87%% said "very well" or "well")
 - Speaking effectively (76.03% said "very well" or "well")
 - Thinking critically (84.56% said very well" or "well")
 - Understanding human behavior, institutions, and culture (82.03% said "very well" or "well")
 - Understanding and applying mathematical principles and methods (76.03% said "very well" or "well")
 - Understanding and applying scientific principles and methods (79.03% said "very well" or "well")
 - Finding, evaluating, organizing, and using information effectively (84.11% said "very well" or "well")
- Q10: 38.94% of students indicated the Student Affairs Department was "Extremely useful" or "Very useful" in helping them with their post-graduation plans, with approximately 41.42% indicating they had not made use of the services. Only 15 students indicated they found the services to be only slightly helpful, and five students indicated the services were not at all helpful. This is similar to last year, and though it indicates graduates are not dissatisfied with student services, it also means fewer are using the services..
- Q11: This multi-part question addressed satisfaction with the College's admissions and registration processes. Regarding admissions, 84.45% of graduates indicated they were either "very satisfied" or "satisfied". Regarding registration, 86.11% of graduates indicated they were either "very satisfied" or "satisfied. A small percentage indicated dissatisfied (.23%) and very dissatisfied (.28%) with both processes.
- Q12: Regarding LIRN (the online library) 69.95% of graduates indicated they were either "very satisfied" or "satisfied"
- Q13: 97.47% of graduates indicated they achieved, or will have achieved upon completing their studies, the goals they had when they started the course or program. This question indicates the College is doing an excellent job of helping graduates meet their personal goals.
- Q14: 97.42% of graduates indicated they were satisfied with their studies with the College.
- Q15: 94.93% of graduates indicated they would recommend the College to a friend.
- Q16 49.77% of graduates estimated their Doral College grade point average between 3.5-3.99, 20..05% selected 4.0 and the lowest range selected was 2.0-2.99. This indicates the majority of graduates felt confident in their performance in the College.
- Q17 57.83% of graduates indicated that at least one parent had attended college.
- Q18 The majority (70.05%) of graduates indicated they receive free or reduced lunch at their home high school, evidence that Doral College continues to serve "at-risk" populations.
- Q19: This open-ended question asked graduates to identify their most favorite experiences at the College. Students listed many different experiences: For the list of full responses, please see page 16. Please note the responses remain as entered into the survey by the students.

- Q20 This open-ended question asked graduates to identify their least favorite experiences at the College. Students listed several different experiences. For the list of full responses, please see page 21. Please note the responses remain as entered into the survey by the students.
- Q21 This open-ended question asked graduates to indicate how the program might be improved. Many students said the College did not need to be improved and was enjoyable as is. For the list of full responses, please see page 25. Please note the responses remain as entered into the survey by the students.
- Q22: The majority, 57.73%, indicated they would not be interested in appearing in a Doral College Alumni directory.
- Q23 A majority, 73.45%, indicated they would not be interested in joining a Doral College Alumni Association.
- Q24 The majority, 75.52%, indicated they would not be interested in learning about a leadership position in an alumni association.
- Q25 Similar to last year's responses, 36.36% responded "yes" and 63.99% responded no regarding attending activities hosted by the alumni association.

Use of Results

It is worth noting that the 2024 Graduate Survey was completed by the largest graduating class to date with a little over 100 more graduates than in 2023. There were questions as to whether or not this would result in a noticeable change in results compared to previous years. Overall, this year's results are overwhelmingly positive, following previous years, and indicate the majority of graduates enjoyed a high level of satisfaction with the College with very few, if any, exceptions.

The revision of the question regarding future career plans gives the College insight into new courses that may be beneficial. The most popular professions were related to healthcare and biological sciences. As Doral College looks to increase course offerings, it will be beneficial to research common lower-level prerequisites for these fields and create a course creation schedule for these courses. This can reduce the number of prerequisites students will have to complete in their bachelor's program.

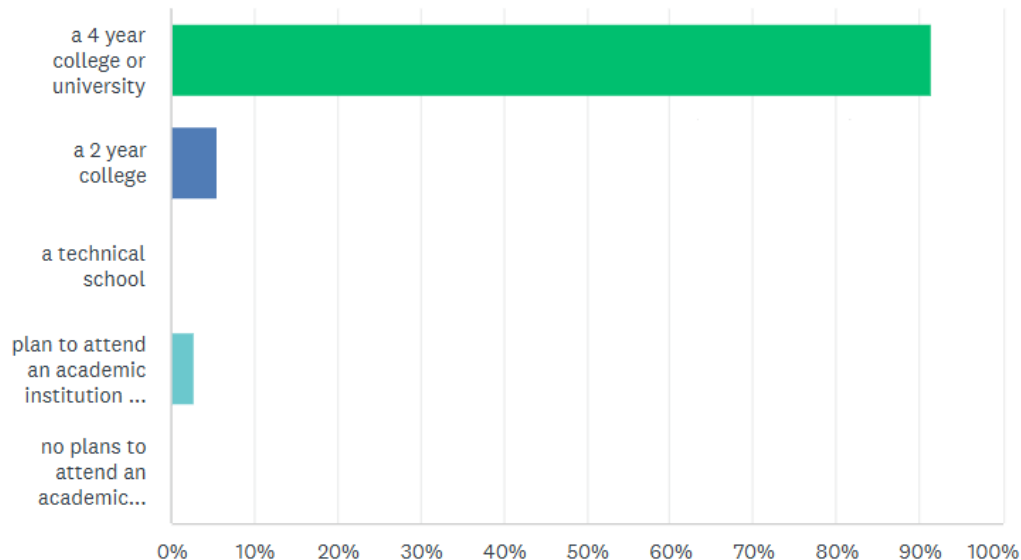

Of the students making use of services offered by the Office of Admissions and Student Services, the majority of respondents were satisfied. Additionally, the majority of respondents were satisfied with admissions and registration. Even though these results are very positive, the office is always investigating ways to offer more services and make the admissions and registration process easier for students and more streamlined administratively.

Once again over 95% of the students responded that they achieved their goals, were happy with their studies, and would recommend Doral College to a friend. This is a testament to the team effort to ensure a valuable experience with a mix of quality academics and services.

Graphical Representation of the Data

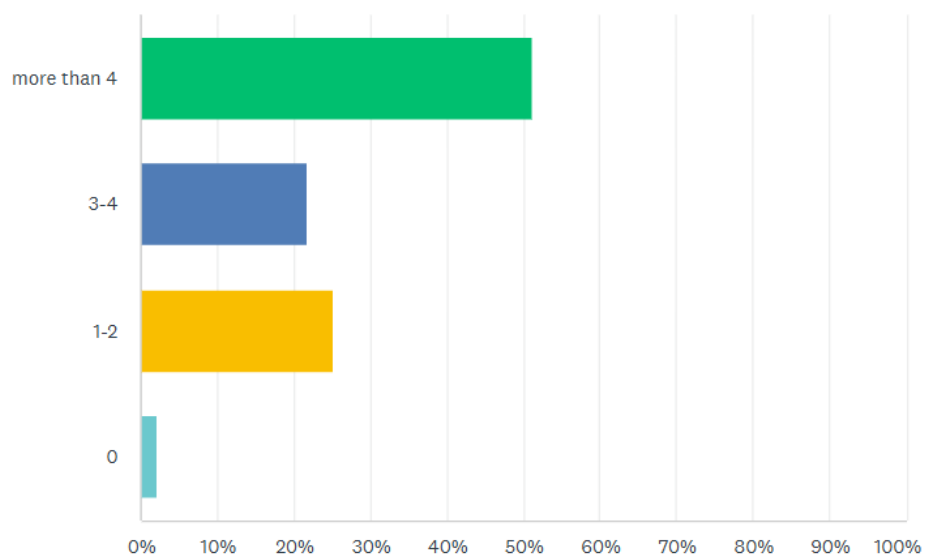

What type of educational institution will you be attending immediately following your graduation from Doral College?

Answered: 434 Skipped: 0

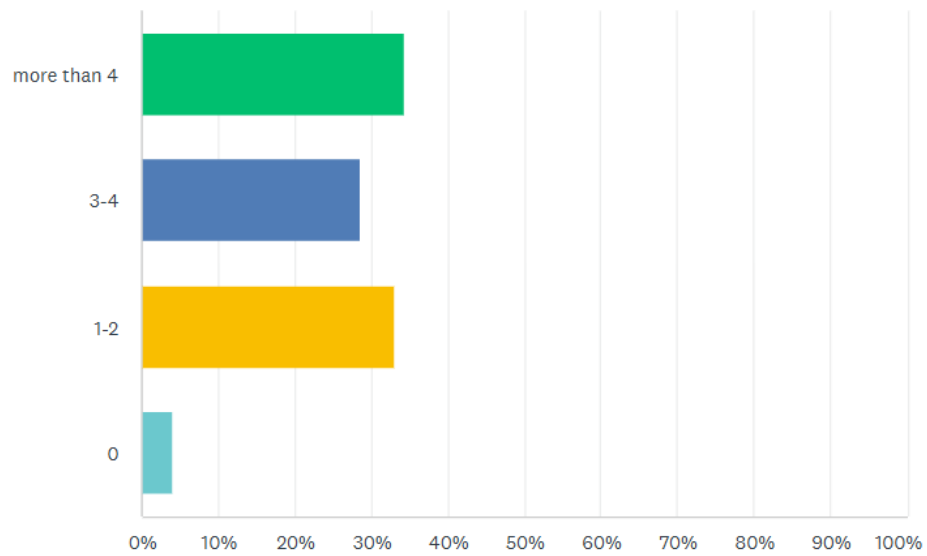

As of this date, how many colleges, universities, or technical schools have you applied to in order to continue your academic career?

Answered: 434 Skipped: 0

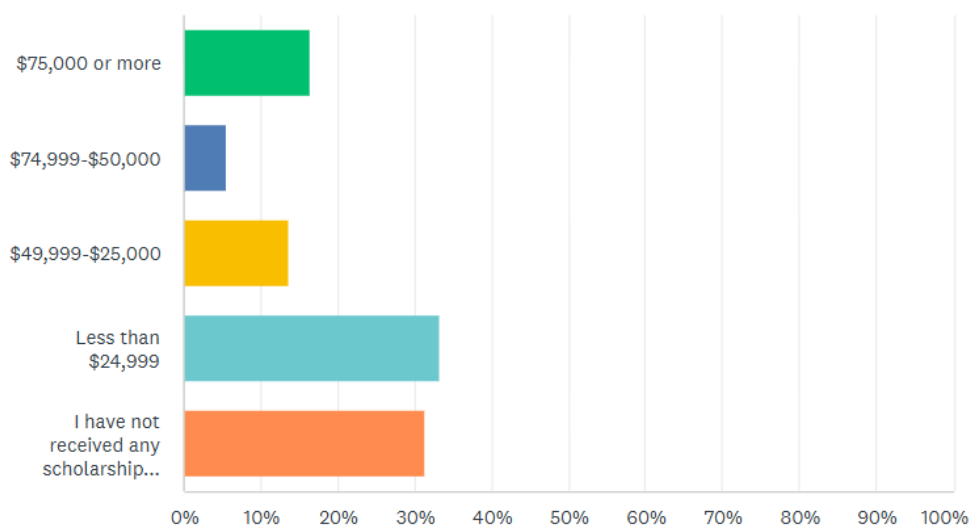

As of this date, how many colleges, universities, or technical schools have you been accepted to?

Answered: 434 Skipped: 0

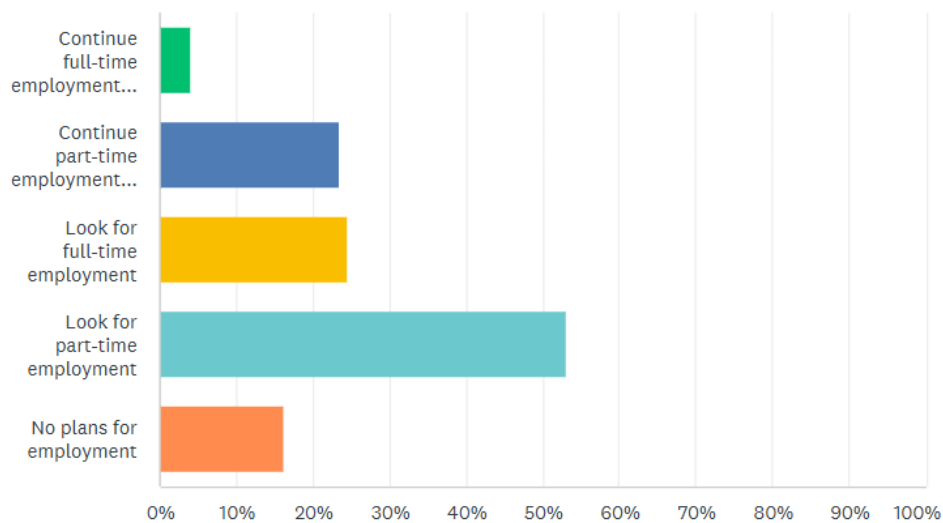

As of this date, approximately how many scholarship dollars have you been offered (from all revenue sources and schools)?

Answered: 434 Skipped: 0

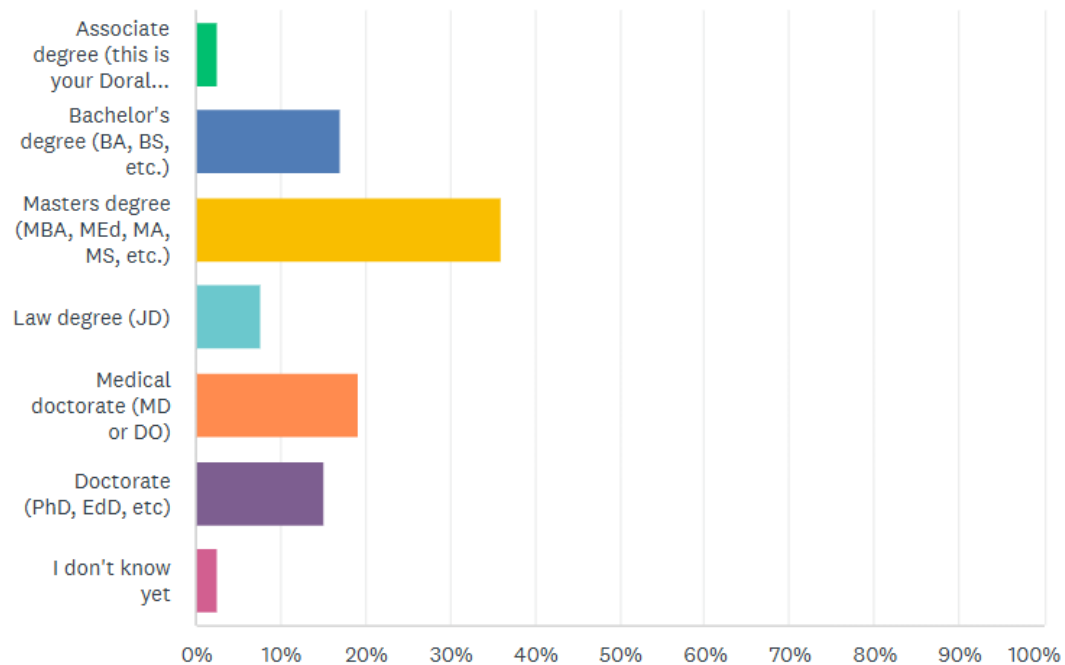

Upon graduation from Doral College, whether you continue your education or not, what are your immediate plans for employment? Mark as many as apply.

Answered: 434 Skipped: 0

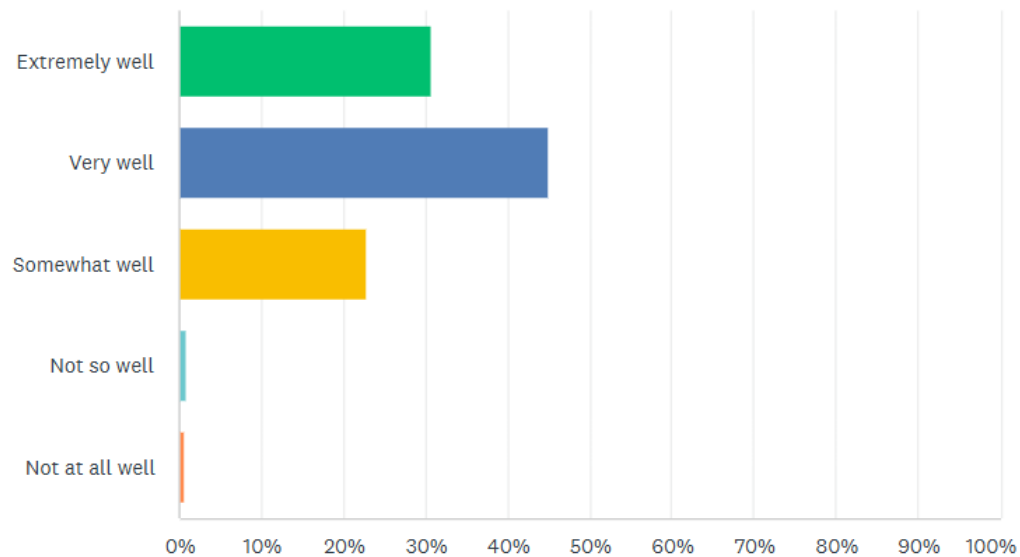

What is the HIGHEST academic degree or credential that you plan to eventually earn?

Answered: 434 Skipped: 0

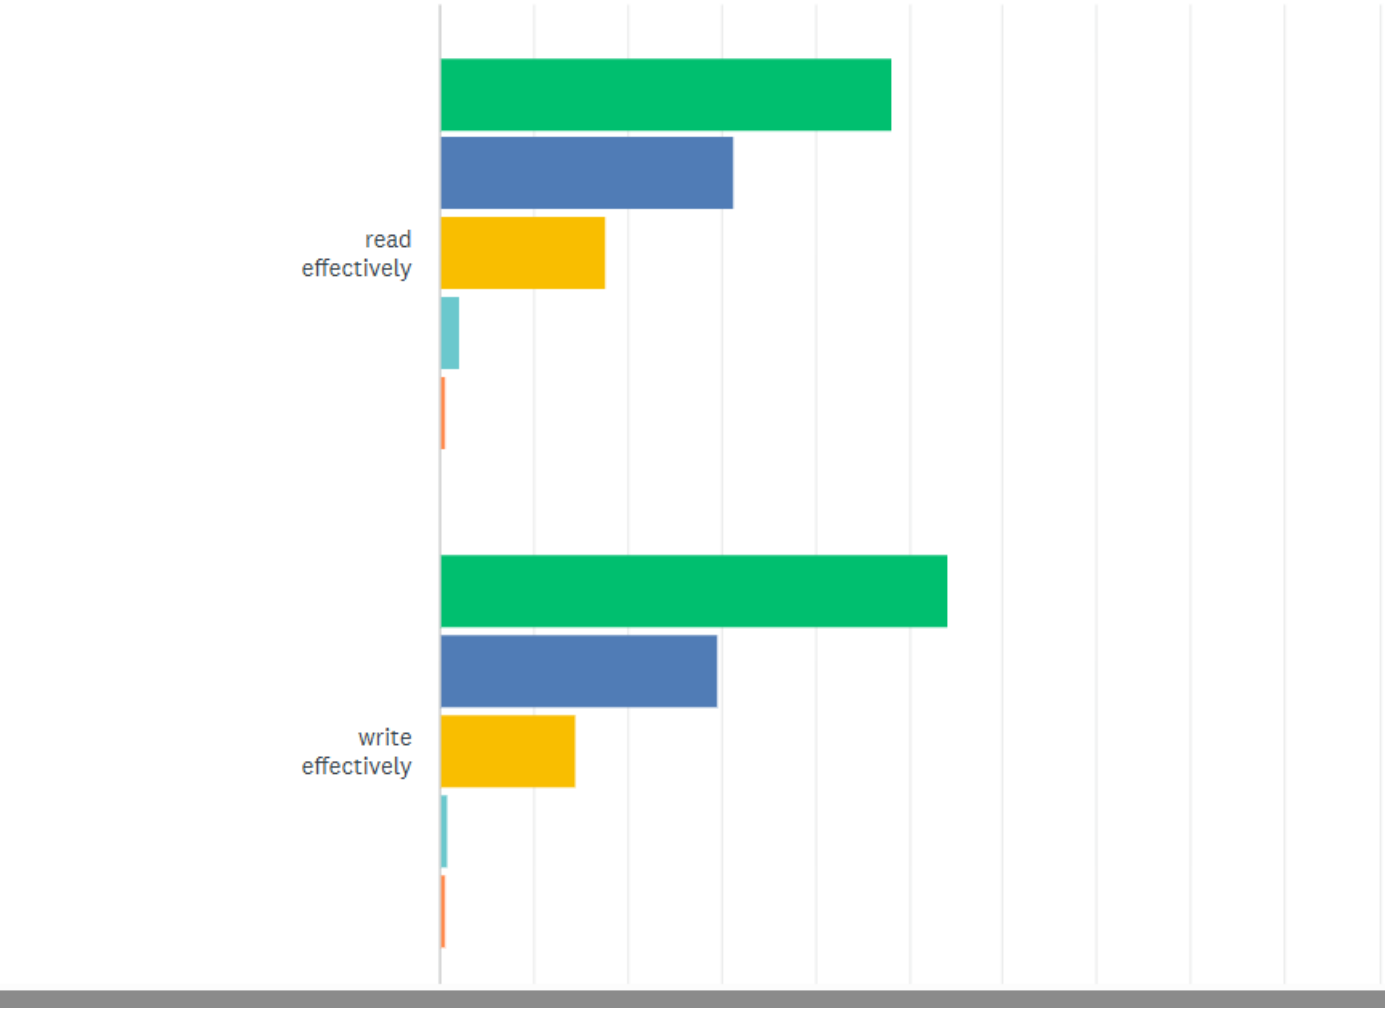

How well do your Doral College instructors teach?

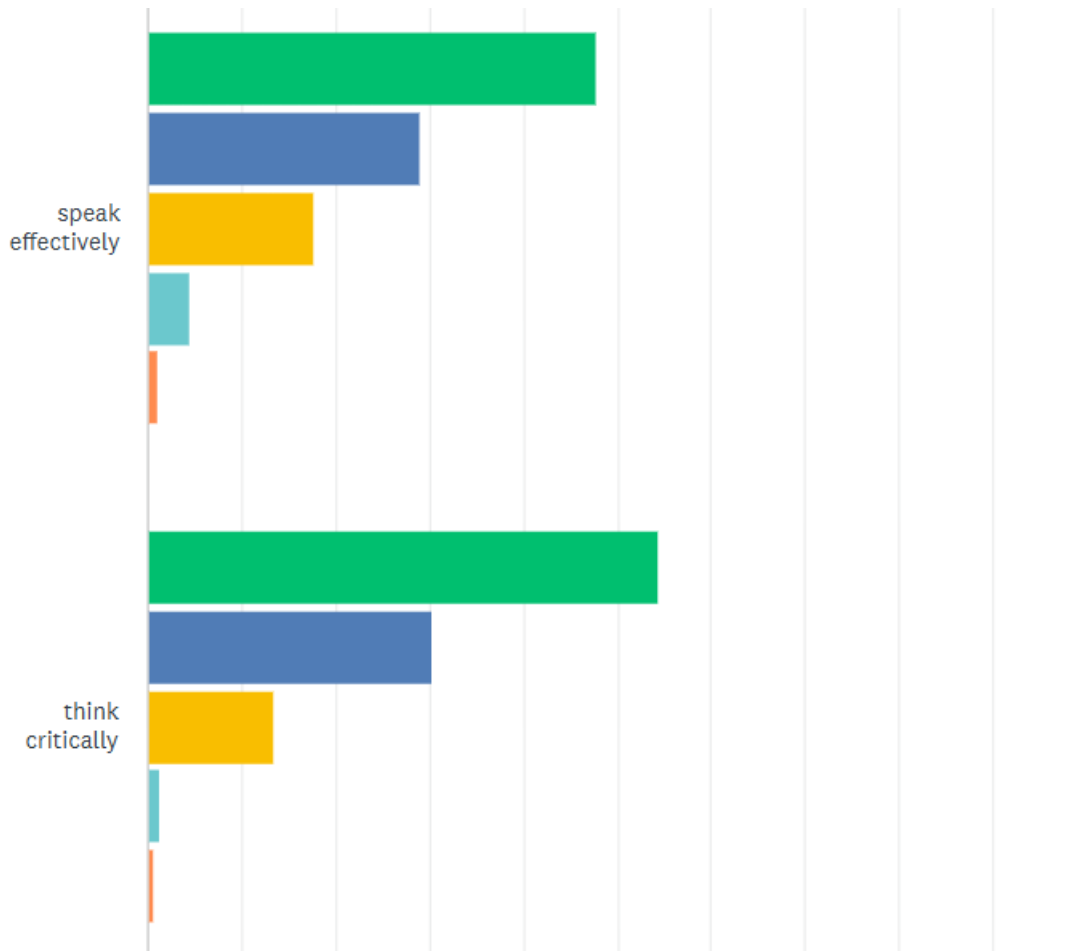

Answered: 434 Skipped: 0

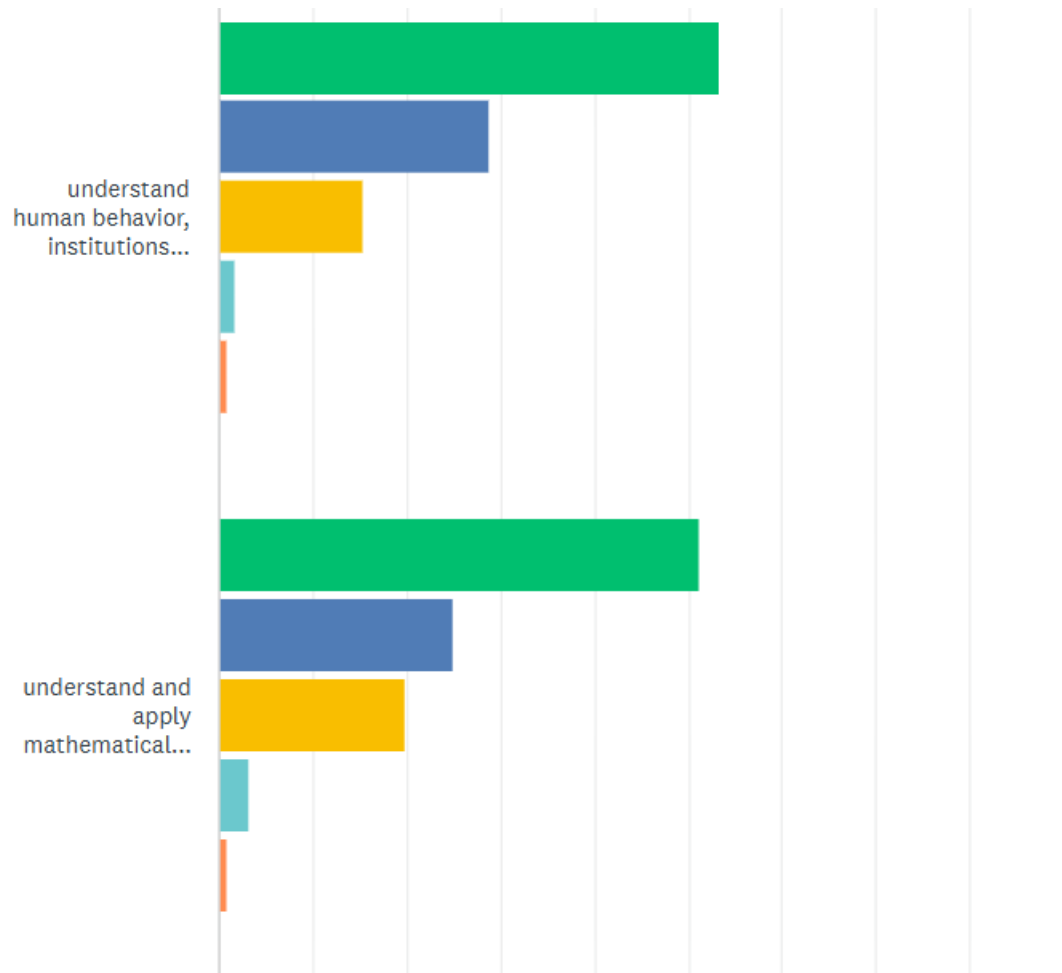

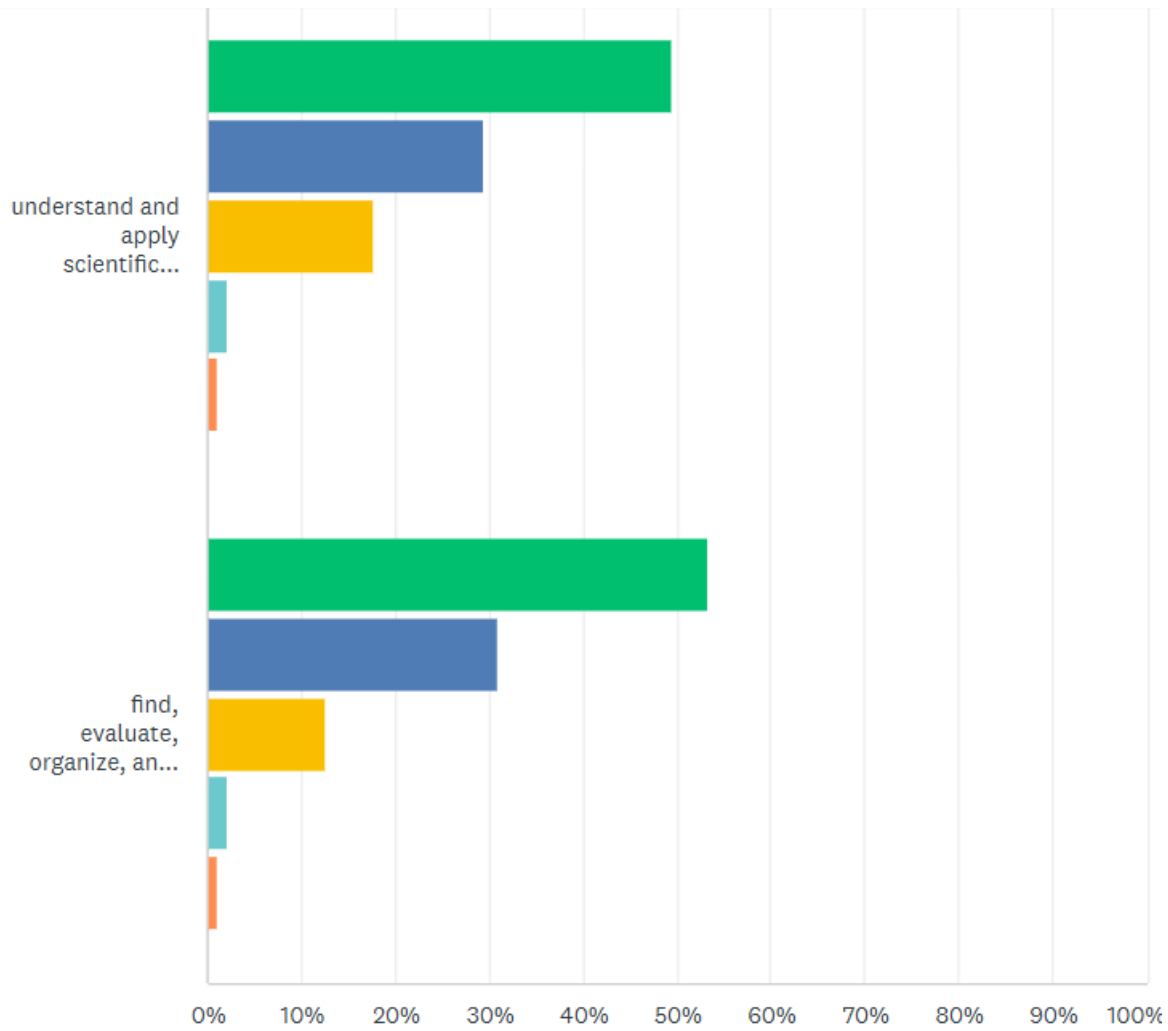

How well did Doral College prepare you to:

Answered: 434 Skipped: 0

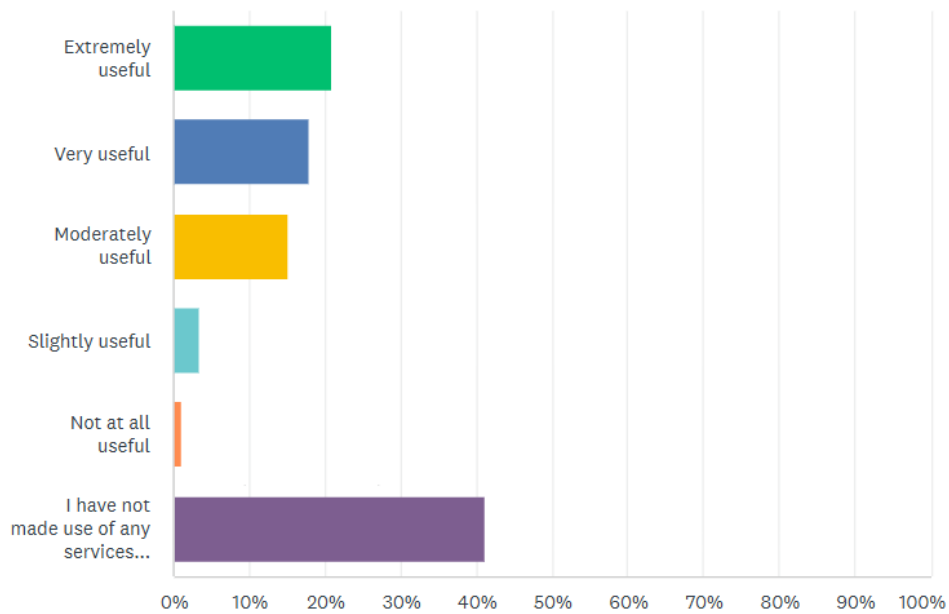

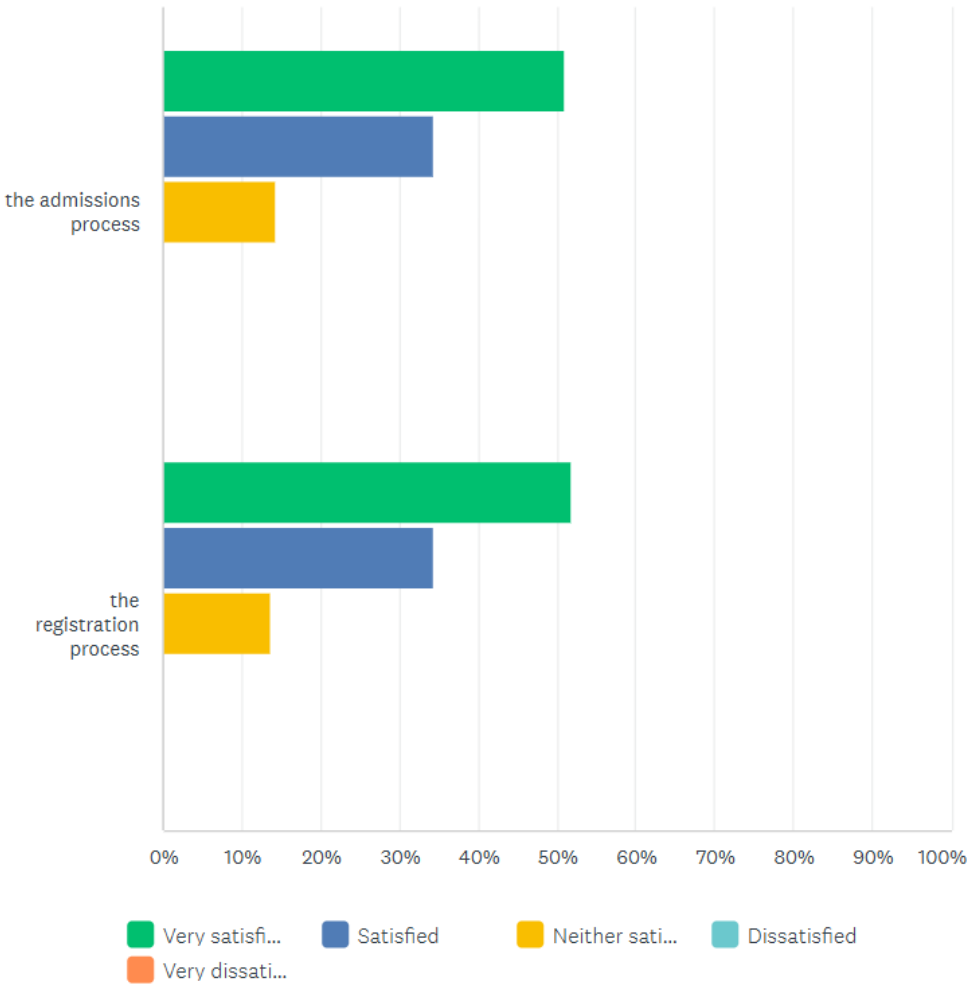

How useful was the Student Affairs department in helping you with your post-graduation plans?

Answered: 434 Skipped: 0

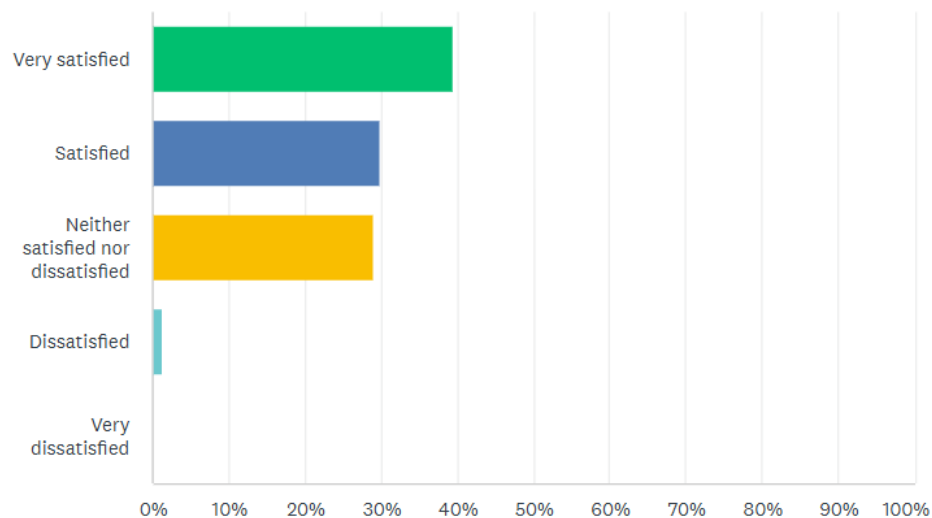

How satisfied are you with the following processes?

Answered: 434 Skipped: 0

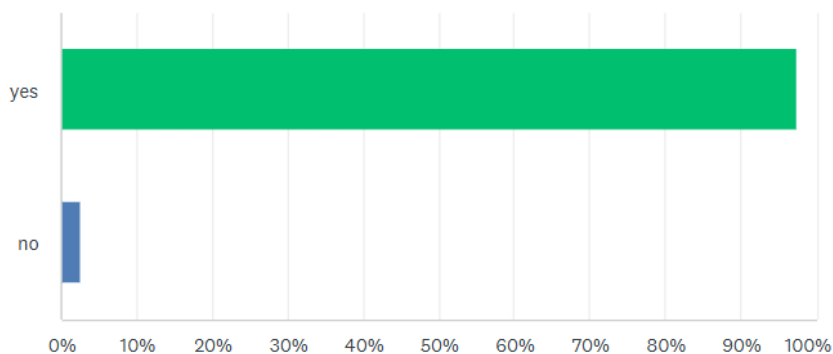

How satisfied were you with Doral College's learning resource databases (i.e. JSTOR, Gale) and library?

Answered: 434 Skipped: 0

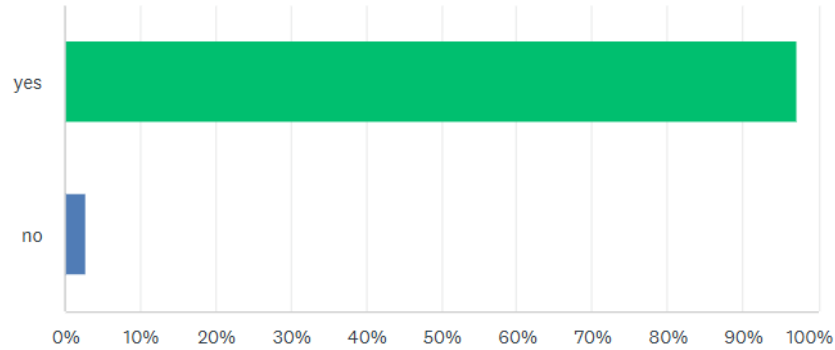

Did you achieve, or will you have achieved upon completing your studies, the goals you had when you started this course or program?

Answered: 434 Skipped: 0

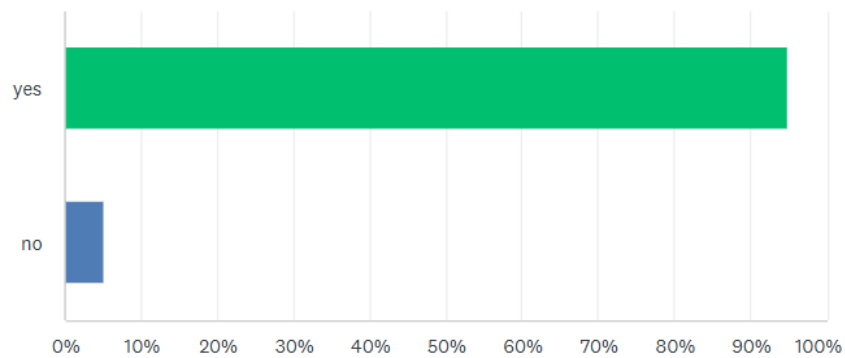

All things considered, were you satisfied with your studies with us?

Answered: 434 Skipped: 0

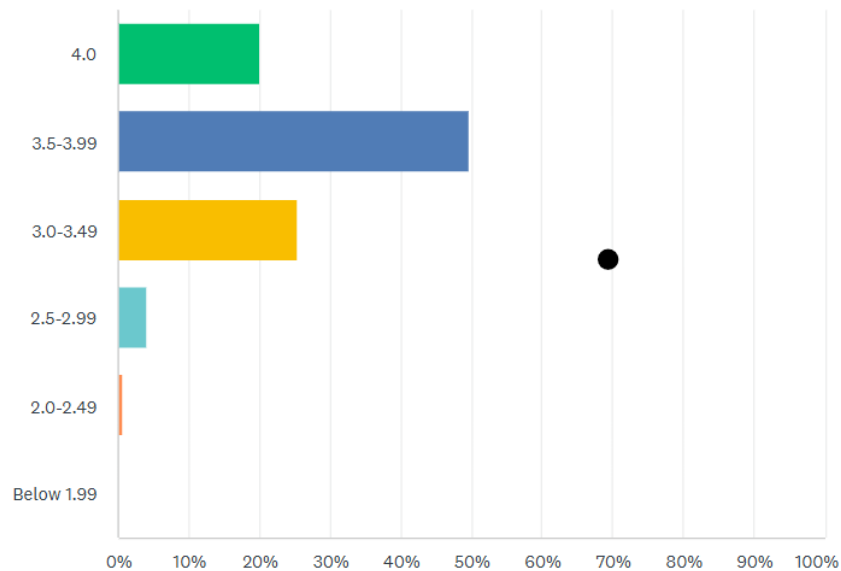

Would you recommend these studies to a friend?

Answered: 434 Skipped: 0

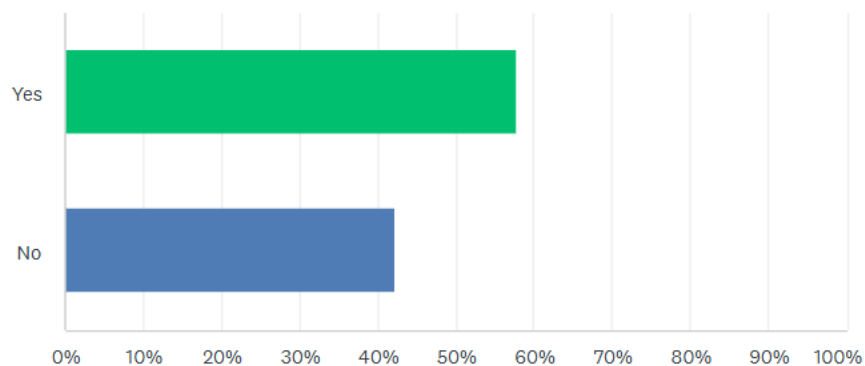

What is your best estimate of your overall grade-point average (GPA) at Doral College?

Answered: 434 Skipped: 0

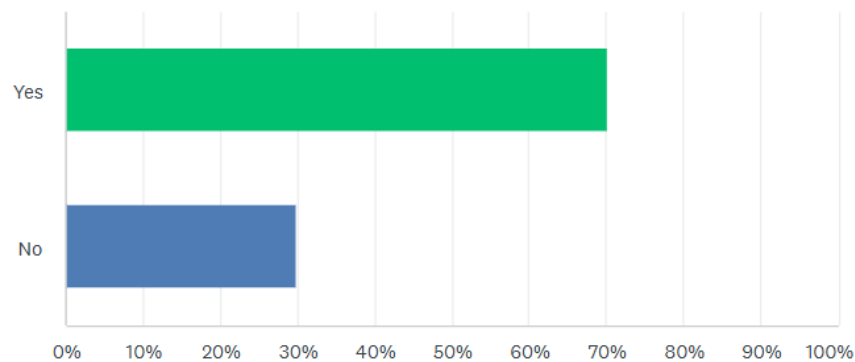

Did either of your parents attend college?

Answered: 434 Skipped: 0

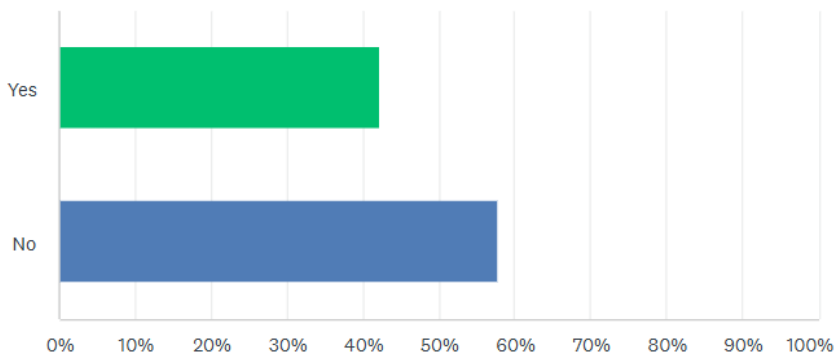

Do you qualify for free or reduced lunch at your affiliated high school?

Answered: 434 Skipped: 0

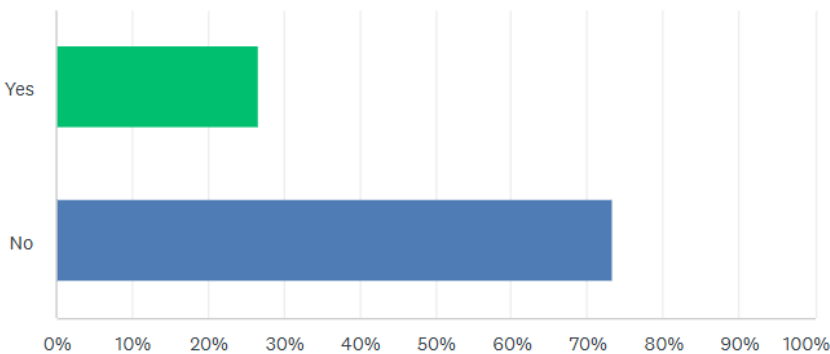

Would you be interested in appearing in a Doral College alumni directory?

Answered: 388 Skipped: 46

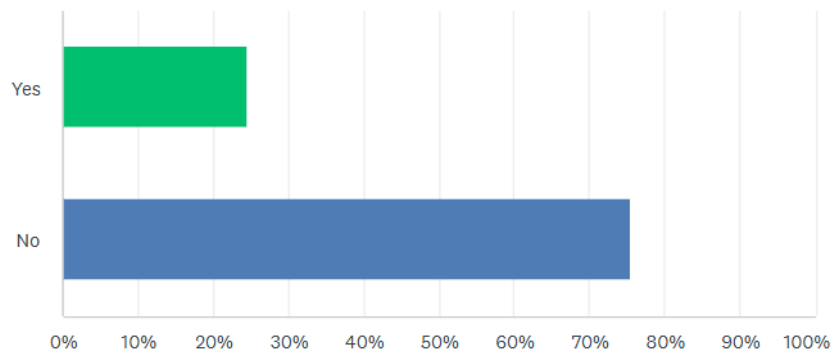

Are you interested in joining the Doral College Alumni Association?

Answered: 388 Skipped: 46

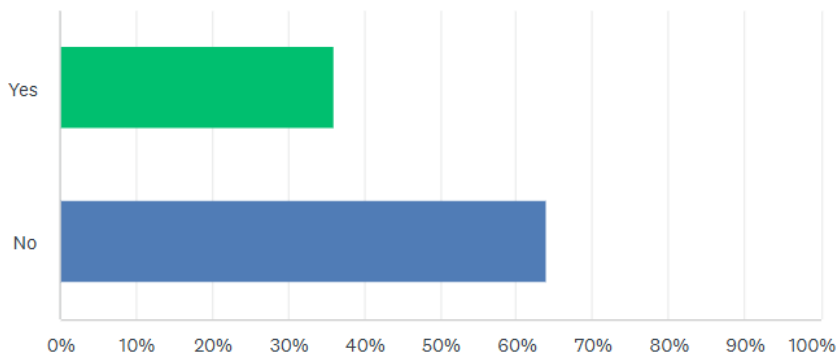

Would you be interested in learning more about an alumnus/a leadership role at Doral College?

Answered: 384 Skipped: 50

Would you attend reunions, networking events, and other activities hosted by the alumni association?

Answered: 386 Skipped: 48

What were your most favorite experiences at Doral College?

- The super helpful teachers and the feedback that we received whether it be through email or comments.
- Learning about all kinds of disorders at Abnormal Psychology
- Sitting at home doing work
- I cannot recall
- Being able to communicate with my teachers.
- How easy it was to use the applications
- N/A
- When I was doing discussion post and interacted with other classmates.
- Getting my AA
- classes
- I enjoyed how leniency of the classes. Very easy to understand and work with.
- I enjoyed being able to work remotely the most, at my own pace.
- Receiving a good score on assignments, quizzes, and exams.
- Learning

- Definitely being able to interact with new professors and see discussions with students from all around the state of Florida. Doral was where I started my first dual enrollment course and it gave me an introduction to what college is like, so I really enjoyed that.
- Learning
- My favorite experience at Doral College would be taking the Anatomy and Physiology class.
- My favorite experience at Doral College was exploring different subjects that I have found interest in.
- The interactions with classmates
- Group projects
- My math classes with Professor Shahibi.
- everything was spectacular
- My fast and easy access to all of my classes. I also enjoyed professional manner of things compared to high school, specifically communication with professors.
- Ending the year with an Associates in Arts.
- Discussions was my favorite experience during doral college.
- Submitting virtual introduction videos and meeting other people.
- Online classes from home
- Flexibility
- Taking classes that I actually liked instead of classes I had to take. My favorite ones were the history classes.
- My science classes
- IBECC presentation I had for my ethics class with a group of people
- Being able to finish my college classes whilst in high school
- My favorite experiences were presenting video projects.
- Learning about other people
- My favorite experiences at Doral College were the amount of fun activities our teachers had us doing in our modules.
- The way I got to be responsible about finishing my work without anyone telling me to do so.
- I enjoyed my professors a lot, especially Loren Mitchell, as he pushed me to do my best work. Doral taught me proper ways of communicating and how to speak to others and I'm forever thankful.
- Getting to meet a whole lot of lovely people.
- Being able to earn my credits for my AA.
- Completing the semesters
- getting to graduate with my associates degree while still being in high school
- My favorite experience was working with some very nice people in a group project.
- My most favorite experiences at Doral College are the math classes, where I had a great time learning a lot of new concepts and ideas that would prepare me for my future work with computers.
- I enjoyed most my dual-enrollment biology class. It was extremely entertaining and decently informative although it was mostly review of what I already knew. I would take that class again and with the same professor; I loved it!
- The way the teachers taught and helped me whenever I had trouble with any of the assignments or when my grades weren't up to par.
- Nice amount of courses to take
- It was mostly online; therefore, I was able to access it whenever I can and do the work on my own pace and time.
- My LIT class
- Being able to experience a variety of courses and subjects outside of my interests.
- My favorite experience at Doral College was anytime a professor would accommodate unfortunate situations, such as turnitin flagging my resources as plagiarism to the point of my assignment being "incomplete". The professors were the best part of the entire journey.
- The teachers
- Learning in my Humanities class.
- The classes
- My favorite experience at Doral College was having great teachers such as Winter Valero
- The classmates
- The way that it was extremely convenient!
- Everything
- The lessons I learned and experiences I gained along the way
- All
- meeting amazing teachers
- Classes

- My favorite experiences at Doral College would probably be my education class where I gained a few friends that were very helpful throughout my educational journey.
- Spending time learning.
- My favorite experiences were learning about college algebra because the professor was very open minded and taught very well.
- I had a great experience learning in my Jazz and Popular music class. Writing papers on musical composers was very fun for me.
- Access to resources like the library and tutoring services greatly aided my academic success.
- Getting to save money and taking classes with my friends
- Doing the speeches for Intro to speech class.
- Learning about different subjects.
- My favorite experience was having Professor Isaac Raymond as an instructor. He was always very understanding and took his time to explain concepts to all his students. Definitely one of the best professors I have ever had.
- Being able to do discussions with other students and learn from them.
- I believe my favorite experience will be graduation!
- Taking ethics as a class.
- I liked that the assignments could be completed throughout the week on our own time.
- Finishing
- Presentations
- Teachers
- Collaborating with classmates let it be through discussion posts or group projects was definitely my favorite experience at Doral College—it exposed me more to group settings (an important role in what I want to study) and taught me more on how to split up work, talk/work with others, etc.
- East work
- My favorite experience at Doral College was being part of the Medical Club.
- Getting to meet all types of people
- My favorite experience from Doral College was having the ability to learn in a college way and get the feeling on how classes would be.
- Taking the classes with my fellow peers and graduating with an associate's degree while also graduating high school.
- N/A
- The learning experience I earned from Doral College was by far my favorite part of this amazing opportunity. Most online classes don't teach effectively; however, with Doral College, it's the complete opposite. I learned so much from this opportunity and I'm truly grateful.
- learning
- The material learned from the courses.
- finishing
- Getting to experience the college experience with the work and learning so much
- the stand giving free stickers, bags, folders and flipflops 4 years ago
- The teachers
- Being able to acquire a strong education.
- My favorite experience at Doral College was taking all these courses and learning about various things before real college
- Doing things on my own
- I was able to get an idea of what College classes would be like
- My favorite experiences at Doral College were how the teachers were very vocal with their instructions and made it clear for students.
- My most favorite experience at Doral College was the opportunity to explore different subjects that helped me decide what I wanted my major to be.
- Passing the classes
- The connections i made with the professors, they helped me tremendously and had incredible patience to assist me and my peers.
- Taking classes revolving around culture.
- Being able to finish my assignments in my free time and learn to manage that time according to my schedule.
- Being able to graduate with my AA
- Having professor Raymond teaching me multiple math courses. I enjoyed his teaching style and always reached out to us letting us know he was open to help us and not be afraid to speak up if we didn't understand the material.
- I really enjoyed learning with some of the teachers and I like the online classes option
- My most favorite experience at Doral College was being able to read the thoughts and experiences of my other classmates in the discussion boards.
- Presenting during ethics and social responsibility.

- My psychology class
- My favorite experience was working in groups with people I did not know.
- My favorite experience at Doral college was taking intro to Chemistry, it was and still is my favorite class I have taken so far and it never fails to entertain me.
- Italian History study abroad
- College Algebra with Professor Mendez, very good teacher and helped me grasp a better understanding of trigonometry.
- classes
- The learning experience
- How much I was able to learn from the teachings
- Finishing.
- Joining the Executive Board of Doral College
- the workload is a perfect amount
- Doing classes from home
- I loved being able to do simulated lab sciences that weren't available at my school and get valuable lab experience!
- Engaging in clubs like Student Government and surrounding myself with rigorous courses.
- The remote access to school-work as a mostly online student.
- The classes and professors
- Being able to meet new people with similar interests.
- Summer courses
- The three biology classes I took.
- The classes
- The discussion posts
- Taking my the Business Ethics course and competing in a competition for it.
- The teachers.
- Learning to think more critically.
- The convenience of the classes and the understanding from teachers as I am dual enrolled.
- being able to advance in my academic journey through dual enrollment.
- SPC Class since it had fun speeches
- Interacting with students that did not go to the same school as me.
- My favorite part were the discussion.
- English classes and intro to logic.
- The easy accessibility of the courses.
- the labs
- Everything
- A favorite experience at Doral College was having a course with my past instructor Isaac Raymond. He engaged with all his students and made sure we all understood the material. He even uploaded videos for us so that we could gain a better understanding of the lessons.
- The great instructors and descriptive assignments that were enjoyable to complete.
- The new information I was able to learn.
- Taking history
- How remote it is where I can attend classes from anywhere.
- I liked the classes and the way they were informative especially with the discussions.
- I enjoyed the psychology assignments because they let me include creativity into my work.
- Honestly did not have any the classes are directly online and no connections are truly made.
- I enjoyed taking courses pertaining to humanities and psychology.
- My most favorite experience at Doral College were completing the discussion as I was able to learn other peoples opinions to different topics.
- Learning different concepts and expanding my knowledge overall.
- Definitely the more interactive assignments with my dual enrollment classes were the funnest for me. The experiments for my science classes, the podcasts and speeches for my English classes, etc.
- Having the flexibility of turning in Assignments by a set due date and completing the assignments in my own time while still having a schedule for the curriculum.
- How involved they want you to become. I am a senator for Doral College which is something i really enjoy.
- The teachers!
- Online dual enrollment in high school
- I enjoyed being able to complete my assignments from my own home.

- The professors made the classes more enjoyable; they didn't make us feel bored or left out .
- My favorite experience with doral was my trigonometry class and how much I've learned from it as someone who isn't that well at mathematics
- Statistics
- My most favorite experiences at Doral college were the first week of courses as it was a fun period in which I familiarized myself with the material.
- I enjoyed the philosophies and humanities related courses that allowed me to explore different viewpoints in the world.
- Being able to do my work online at my own pace.
- Having todo hands on projects for example in oceanography we had to complete an ocean wall project.
- The efficiency and conciseness
- Being able to complete my 2 year degree
- My favorite experiences were getting to meet new people. Doing group projects you connected with people from all over the state and it was nice hearing their experiences.
- My favorite experiences at Doral College was collaborating with those in my course on group projects.
- Getting my AA
- Completing courses
- The classes
- Ethics class
- flexible schedule
- getting my AA
- Writing Discussions
- The teachers.
- Multiple choice quizzes
- I enjoyed exploring my academic interests.
- I mean, it's online courses so I can't really pinpoint exact experiences to be honest, it was overall a good experience though
- Mathematics, Chemistry, and Philosophy courses. Instructors Raymond Isaac, Shihabi, Walid, and Jose Marti were the best. The videos and content they produced for their classes provided me with full explanation of the concepts I needed to succeed. I deeply enjoyed their class, for they equipped me with relevant knowledge that will be applicable to my future.
- Taking Doral Classes in person at my high school was very helpful. Also, it was always easy to reach my online professors if I had any questions about assignments.
- The results of my hard work
- One of my most favorite experiences at Doral college was how caring my Principles of Marketing professor was. He was willing to try his best to help me succeed in his class. At one point I was failing sending him numerous emails and with great communication I ended up passing the class.
- Interacting with classmates in discussions.
- The virtual labs in my biology two class, and the English courses I was able to take on campus at my high school.
- Supportive professors
- Meeting new professors
- graduating
- Good
- The different type of classes and how much I learned from it.
- learning from the humanities classes.
- The quick helpdesk
- I loved communicating with peers through discussions and learning about new subjects!
- The classes
- Being able to talk to my teachers and them always being willing to help me out
- The zoom lectures when provided by professors.
- The discussion posts
- Business Courses and Introduction to Ethics Course
- My favorite class that I took was Entrepreneurship. I learned a lot about the business world and what it takes to run a business.
- Throughout my time with Doral College, I have enjoyed the interactive labs mostly seen in the Natural Sciences offered.
- Being able to connect with my professors and being able to connect with my classmates through discussions and/or group projects.
- My favorite experiences at Doral College were the mathematics courses offered specifically by Mr. Raymond. I took three math classes with him as my instructor, and was able to further understand college level math due to his frequent involvement and aid offered throughout the course.

- The online courses
- Submitting my assignments on time.
- My most favorite experiences were the assignment that were more hands on learning than the more writing parts.
- My favorite experience at Doral College is that it is time flexible.
- The decision of working towards completing my degree.
- getting to be part of the senator board
- Teaching diverse populations class learning about different cultures.
- Having an opportunity to meet more people.
- My favorite experience was when I first interact with canvas in my live and the first course that I took were very important acknowledge that I remember with Doral College.
- While I attended Doral College online they did an excellent job at still making us feel included which is my favorite part of the overall experiences.
- My English II Composition class was my favorite. It was one of the few times the assignments didn't feel like work and I had fun reading the books that were assigned.
- Being able to advance education while doing it in a fun way
- My most favorable experiences at Doral College consisted of how flexible the scheduling is and how easy it is to access all necessary resources.
- Taking Gary Holbrook's sociology class, cooperative teachers, Educational Psychology with Dr. Zhang.
- Gary Holbrook's Sociology class and Isaac Raymond's STEM classes (who very quickly responded to emails)
- I loved the communication between the professors and instructors.
- Biology Class and SGA
- I really liked Introduction to Humanities with Prof. Machette (I think that was her name) because the projects were fun! The class was interesting too.
- Being able to take a wide variety of classes.
- doing all the speeches
- the lab activities
- My favorite experience was how the teachers are very supportive and the classes are easy to understand

What were your least favorite experiences at Doral College?

- Waiting at least a week for some of my instructors to message me back.
- Sitting at home doing work
- Missing one exam grade and my grade being stagnant no matter what grades I got, unless it was going down because I had less than a 100.
- How some teachers were with grading
- My least favorite experiences at Doral College is when I had to record myself for public speaking but it ended up in my benefit because I became more comfortable talking to a camera.
- Music Appreciation
- not interactive
- Not receiving a good score on an assignment, quiz, or exam.
- Instructors
- Definitely sometimes the learning experience in STEM classes like Chemistry and Biology, I feel like only giving a resource such as a video or a book section, rather than aiming to explain how it connects definitely hurt my course experience. I know its not going to be like a lecture as it is an online course, but bridging that learning gap can definitely help.
- Learning
- I don't have a least favorite experience at Doral College.
- My least favorite experience at Doral College was having a lot of assignments due on the same day for one course.
- The difference in dates within assignments. Sunday is a good due date
- when my dog died before class.
- Lack of opportunity when it comes to in person activities although I do not mind.
- Doing repetitive essays for a few of my courses.
- The Exam format was tricky at times.
- Honorlock was difficult to work with sometimes.
- One teacher that greatly affected my grade
- Online classes are harder than face to face
- Having to take classes I didn't like to obtain my AA degree. All the math classes as an example.
- Tests

- That the discussions that I would type and leave to finish later would not save sometimes
- Finishing a paper at 11 pm and being dreadfully tired
- My least favorite experiences were taking the exams.
- LIRN library
- My least favorite experiences probably came from my statistics class as it was a hard class for me that I didn't enjoy even though I had a great teacher.
- Nothing
- The hardest part about Doral was adjusting to complete online learning platforms.
- Having to deal with administrative affairs.
- Some teachers.
- None
- i have no experienced anything bad in doral college
- My least favorite experience was having to do classes in the summer.
- My least favorite experiences where times when I ended up turning in assignments late due to unforeseen reasons, and wasn't able to make up for it.
- I really dislike school and I dislike homework and I dislike grades for so many reasons.
- Not much everything was well just taking many classes at once was a little overwhelming
- Certain courses with their courseload
- I do not have a least favorite experience with Doral College.
- My LIT class
- Having to remotely complete my courses without teacher-to-student interaction.
- I don't have any bad experiences with Doral College itself, all my "bad" experiences stem out from my own actions, such as delaying work or delaying study time.
- The work load
- College algebra
- Not reviving notifications on emails
- Having technical issues
- The studying
- I wouldn't say there is anything bad about Doral College. I recommend it to everyone!
- doing group work
- Zoom sessions for in person classes.
- I wouldn't say I had any.
- Doing classwork.
- I did not enjoy College Algebra. I felt as though they gave too many assignments with little learning opportunities.
- Improving clarity in communication and academic expectations from professors and staff would alleviate confusion among students. I felt like I had no source of contact with other students which is important in a class to have the support.
- Getting teachers who couldn't care less about h th e students
- Writing the script for speeches for Intro to Speech class.
- Some teachers had a large workload.
- Feeling limited by having to complete lessons that im not mastered in.
- I have no least favorite experience!
- Taking music appreciation and public speaking.
- Assignments
- Least favorite experience at Doral College definitely had to be the eventual stage of forgetting you had assignments due one random weekend night and finding out the day of that they're a total of five assignments and each requiring a minimum of 3 pages.
- Time management
- I have none to report at this time.
- Doing so many homework's
- My least favorite experience is probably not having a one on one with the professor.
- The registration process.
- Luckily, I never had any unfortunate experiences at Doral College. Everything was great!
- none
- Finding out credits did not transfer to private institutions.
- the work
- The struggle in balancing school work

- when my college do not offer us subjects that you shows at the flyers
- The website
- Nothing, I never attended in person.
- My least favorite experience at Doral College was when professors had absolutely no sympathy for us as students
- Group projects and limited classes
- The after school classes
- My least favorite experiences at Doral College were that after the three day mark no work is accepted.
- My least favorite experience was when too many assignments were due on the same day for one course.
- Nothing
- Not that good resources to reach for to help advance and improve in classes.
- My least favorite was some of the courses that had extreme amounts of work due.
- I am a visual learner so most classes that involved a lot of reading were definitely more difficult for me.
- The amount of work per week
- When I locked out of my canva account and wasn't able to complete my assignments.
- Nothing I loved it all
- My least favorite experience was group projects.
- Trying to learn math for the liberal arts with barely any resources.
- The computer technology course
- Doing final exams as they were stressful.
- Least favorite experience at Doral college was an interaction with my previous Humanities professor regarding a an issue with an essay submission that she couldn't see on her end but I could clearly see I submit end on time and she still gave me a zero after I did all my work properly.
- Math for Liberal Arts
- Anytime the Canvas was down.
- showing my id in a video
- How difficult the assignments were at times
- Starting.
- The long essays
- the lack of communication with instructors
- Nothing to be completely honest
- not being able to connect with other students as much
- Not all professors are able to reach out to students effectively.
- The lack of in-person contact with teachers or mentors.
- I didn't have a bad experience
- I did not have a least favorite experience at Doral college.
- The exam portions of each semester.
- Don't have any
- The long essays
- The registration process.
- Completing tests online.
- Turnitin flagging my papers and PowerPoint when they were 100% mine. Responding to students on discussion posts with empty statements like "this was a great discussion post".
- I do not have any dislikes in my Doral College.
- Physics, it was very hard to keep up
- The tests.
- My least favorite was turn it in.
- Music appreciation. :(
- Nothing.
- the presentations
- Nothing
- One of my least favorite experiences was when I had an instructor take so long to post grades and would never respond to their inbox messages. They would wait forever to upload them, making it virtually impossible to keep track of one's progress. Thankfully, they were removed from the course and replaced with someone who did keep track of student work.
- The heavy workload at times.
- I enjoyed everything.
- Taking music appreciation

- Non
- I didn't like how some of the teachers were not very helpful
- Honorlock was very difficult to use on my computer as downloading an application that shut everything else down overdrawed my battery and processing.
- Some teachers take quite a long time to grade.
- My least favorite experiences were having to take most mathematics courses as they were challenging at times.
- There are no bad experiences that I had when completing course on Doral College
- The due dates.
- Most likely the weeks where I had a lot of assignments piled on at once but regardless I was able to power through and turn them in well done and on time.
- Certain colleges that I applied to did not accept the credits.
- I would not say I had anything that I did not like at Doral College. Sometimes instructions for assignments were unclear but teachers were there to help.
- Never attended the college campus
- I did not enjoy the lack of connection with professors or student affairs.
- The work load was definitely heavier than my other classes.
- Student experience
- My least favorite experience is receiving low scores without an explanation unless I email constantly
- Humanities
- I hated the math classes
- Public Speaking.
- My least favorite experiences at Doral college were the last weeks of courses because usually this time period would be filled with projects and exams and that could get slightly overwhelming.
- The math service used by some (if not all) Doral College mathematics courses, Knewton Alta, was very time consuming and difficult to work with.
- 4 assignments for one class a week
- The sometimes unclear deadlines and bugs in Canvas
- Testing
- My least favorite part was just navigating the system in the beginning. Going from high school classes to college classes was a big difference but eventually we all got the hang of it.
- I do not have any least favorite experiences at Doral College.
- I don't have any bad experiences
- Some of my credits not being able to transfer to other institutions
- It was a great experience, no bad experiences
- Liberal arts
- Breaks didn't align all the time
- Doing Math Tests
- Doing work.
- Honorlock anything
- Non-forgiving or non-accommodating professors.
- Some of the work
- The use of the LIRN Library
- The stress from the workload
- Everything was online so if I had a question, I had to email and wait a little but before hearing back.
- The long papers.
- It is difficult to know sometimes if you are registered for a class or not, and some schools do not accept Doral College credits.
- Missing work
- Music appreciation
- Test with Honorlock.
- All the exams I had to take
- math.
- Summer term
- My least favorite experience is the difficulty of learning math and not having lectures by teachers.
- Having to do zoom
- That I always have to login through college and not just search up doral college online
- Teachers who just put work and don't take the time to explain things on zoom or in a video in order to help visual learners.

- No comment
- Honorlock
- Introduction to Chemistry
- My least favorite class was Principles of Biology II. Not many resources were given for studying making the class incredibly difficult.
- Overall, I have no least favorite experiences and found that the courses I took each helped me learn new skills.
- Too many assignments for me to handle
- classes being on quizlet
- Did not have any
- Looking up reference articles in the library.
- My least favorite were when I'm doing an assignment and I'm trying to find a certain topic in the library and it doesn't appear.
- My least favorite experience at Doral College is the lack of teacher and student interactions.
- The stress of not possibly not completing my degree
- Hours of newton math
- The hard classes such as biology.
- The final part of the course and the stress that comes with it.
- My least favorite experiences were having technical difficulties and honorlock being hard to work with.
- My Computer Fundamentals class was probably one of my most difficult classes.
- I had no least favorite experiences
- My least favorite experience at Doral College was the lack of connection between the students and the professors.
- Nothing it was great.
- N/A
- Don't have any.
- GEB 2340's IBECC
- Nothing, I've only had good experiences with this college.
- doing those long essays
- the papers
- My least favorite experience was that the classes were online I wish I had classes in person to get the college experience.

How could the student experience at Doral College be improved?

- Getting to know our teachers, a small but significant touch.
- To make the instructors more aware of incoming messages.
- Give in person classes
- Better grading scales
- Fine as is.
- It is already good
- You can improve the experience by allowing students to review there quizzes and exams after taking them for further review.
- Understand workload of dual enrollment students better
- more interactive
- If it was more engaging.
- There should be a live, virtual session on all of the requirements to graduate from DC.
- If they begin Doral early and take their core, mandatory classes first before taking anything else.
- Late assignments and instructors
- Bridging the learning gap, help to make sure students are understanding beyond just a book section or video, have lecture videos by teachers, ensure students are active and taking notes, etc.
- It's good as it is
- The student experience at Doral College would improve if professors pay attentions to their mail for student emails.
- The student experience at Doral College could be improved by having professors make lecture videos weekly discussing what is to learn that week, like Professor Marti does.
- More optional zoom meetings
- I don't really have answer to that, the Professor are extremely knowledgeable and down to earth when it comes to students.
- they should add more water fountains
- Being able to have more opportunity to speak to professors.
- Creating more engaging assignments between students.
- Nothing much need to change in my opinion.
- More interactive

- More courses available
- Have the professor respond on time. I haven't dealt with that problem in a while but before I had some professors who would never respond to any form of communication and didn't open their zoom for their office hours.
- No honorlock
- More group projects it makes leaning more fun because you get to interact with classmates
- More comments on my work so i know how well or poorly i did/ Better feedback
- I would make communication between students easier.
- Improve LIRN
- The student experience is already great and doesn't need any improvements.
- It's perfect the way it is
- Some of the websites used by the college should get a revamp.
- tours for online students
- It can't it's great
- no comment
- Teachers can help students better, individually.
- The student experience at Doral College could be improved by adding more times where students can meet with their teachers via Zoom, etc.
- It's alright as is; I'm sure there are resources, I just did not use them. Nor do I know how I would go about using them anyways. I am a dual enrollment student, so, my experience is really not the standard experience; I'm sure of this.
- There isn't anything to change about the student experience I believe that it was good.
- Professor check ins
- I do not think there is need for improvement.
- It is already too good, no improvement is needed.
- More interaction between the teacher and students when learning subject materials.
- I believe professors should check up on students more, such as check in discussions about stress levels and class experiences.
- Not sure
- Not much to improve on, overall very happy with my experience.
- Allow for easier access to notifications
- Doing everything on time in case of technical issues
- It's perfect
- It is great how it is!
- more cool classes
- The student experience is wonderful
- I loved it completely.
- It is already great!
- The math department should give better resources for learning.
- Enhance communication channels and provide clearer guidance on academic expectations to students.
- Get better teachers who grade on time
- It was perfect 😊
- Condensing some workload so the student has more time and puts in more effort to learn the material rather than just getting multiple assignments done.
- By introducing adaptive lessons for math courses.
- I think it's great!
- Better communication between teachers and students
- more communication with teachers
- I feel like one thing I wish improved would be the connection between Doral College with its students. Although it is our task to be on track with all of our work, having a better formatted app to keep us on track and notify us on upcoming assignments would definitely prove useful when it comes to student completion.
- The student experience at Doral College could be improved with more Zoom discussions about the material.
- Create a grad bash for graduating students
- It can improve by having a zoom meeting or having a way to connect with the professor.
- Making communication between high school students and administrators simpler and more accessible.
- Since I had such a great experience at Doral College, I have no critiques on how to improve the experience.
- it's good
- I believe the experience was perfect.
- Doesn't need to be improved

- offer for real all the subjects listed in the flyers
- I don't really since I never attended in person.
- Better casing of professors
- More classes can be added
- I think the Doral college experience is extremely satisfying
- I didn't have an issue with any experiences at Doral College.
- Student experience at Doral College could be improved by the instructors making lecture videos for each week discussing that specific topic, such as professor Jose Marti.
- It is fine the way it is
- The assistance outside of school, such as mentoring/tutoring.
- Maybe have the professors have a stronger connection with the students.
- More videos and less textbook
- I can not think of anything
- The student experience at Doral college could be improved by having a better format when it comes to group projects.
- Have the teachers be more involved.
- I believe it was good enough
- Overall its a good experience although it would be nice to see more group work to meet people.
- Honestly nothing really stand out that could be improved, my time at Doral college was pretty pleasant despite of my previous statement.
- by being more involved and putting in the effort
- More helpful resources for students
- Do assignments early.
- More learning resources to depend on
- I'm not sure
- have a better way set to communicate with professors
- Better canvas layout and notification system
- Interactive in person or online seminars and workshop opportunities with special guests or community leaders, internship opportunity connections, and possibly an alumni connection network
- Trying to promote other outstanding clubs and have new courses for students that have other interests.
- It's already a great institution.
- I think that the experience as is right now is perfect
- I think the experience is great and there is nothing to improve.
- Make resources more available to students
- I don't see anything bad about Doral College
- Less long essays
- It is good now.
- Having more time to do assignments.
- I believe the program is fair and just as it is.
- Regulate who teaches and if they are qualified
- More teacher involvement
- I believe it is fairly well as it is now.
- I think the experience is already amazing.
- better assignments
- Keep helping students
- I definitely feel like teachers could try and make the assignments more engaging and less about reading long passages. Also, I think that making lesson videos for harder courses like math and science would help visual students learn more efficiently.
- Personally, I have never had bad experiences at Doral College and continue to be satisfied.
- No need for improvement.
- I think if they offered more student-based events it will help break the wall between the online students and instructors. Having seminars, interesting presentations, or even internship opportunities could all help.
- Fix honorlock
- They could have the teachers focus a little bit more on their students and their education.
- Organize more zoom meetings or group projects and interactions.
- Every teacher should have 2 grades inputted minimum by grade.
- I believe the student experience at Doral College could be improved by providing students with easier access to contacting teachers for any questions or concerns.

- I believe a way for student experience to improve in Doral College would be better communication.
- Less homework.
- I would say I probably have less interaction with the actual physical campus since I study online but my only critique would be that certain professors took a long time, even weeks, to respond to messages. However, this was rare.
- Try to involve more students and get a bigger following. Make more events to encourage students
- Despite being online, more interactions with students would make the experience better.
- If student affairs was able to communicate more effectively and efficiently.
- Distribute less work due in such little time.
- More communication between professors and students
- Face to face instructions and assignment help
- Offer zoom classes for online
- I think the student experience at Doral College could be improved by the addition of more classes.
- This may not be feasible with long distances, but more in-person events and opportunities for students should be hosted.
- I believe everything was amazing
- Fixed bugs in Canvas
- The student experience at Doral could be improved by having more experiences all together. Most of us don't know majority of our class so by knowing each other before it makes the experience more personal.
- I feel it is great and cannot be further improved.
- It was already good
- No need for improvement
- More club involvement
- Updated coursework
- more attentive staff
- By increasing interest on the student.
- It cannot.
- better communication about future plans
- Review if professors are actively communicating with their students.
- It's good as it is honestly
- Zoom meetings for lecture
- It can be more hands on. I think more in-person classes should be offered.
- Better communication
- Mandatory classroom studying because some people might learn better when someone is actually teaching them instead of just giving work.
- More personal experiences.
- A better Doral College website where students could submit requests to register for courses, and better accreditations so more schools accept students' Associates of Arts.
- More hands on learning
- Greater technology involvement
- More interactive.
- Better instructors
- Potentially more teacher student interactive learning.
- More teacher and student interaction
- More hands on experience
- Including more events for togetherness.
- It was overall good no need for improvement
- I think everything with doral college is perfect
- More zoom lectures and/or interactive lessons with teachers.
- No more Honorlock
- More involved teaching methods rather than writing assignments and tests
- The student experience at Doral could be improved by stating clubs based on the interests of students. Students can make me friends with other peers.
- more communication from professors and more kindness
- The only thing I would suggest is allowing for students to do no coursework throughout breaks as I experienced a couple of courses which did not account for such breaks and would assign work for the week. Still, this is a minimal issue for me.
- More teacher interaction
- better general news for online students as to events they are welcome to

- Make the library easier to manage.
- The student experience can be improved by having a more user friendly environment for example a search bar to help students find their materials without stressing out.
- I would improve the student experience at Doral College by having mandatory zoom meetings at least once per month.
- More resources in some courses to prepare for exams.
- It's actually perfect for students.
- I do not believe the experience needs to be improved.
- I think it's great!
- Everything is perfect i wouldn't change it
- More interactive lectures could have improved the experience at Doral College.
- Better class registration.
- Earlier class registration; better communication with the high school/counselor
- It is fine.
- Virtual zoom
- Make more interactive programs in canvas to help with work.
- student-teacher interaction
- it doesn't need to be improved
- More classes in person to get the college experience and your more focused in a school environment
